If you don't know the Pipe Man you might know the name. Anything that's not a better good at wholesale price at the Lacombe Furniture Store.

Mrs. W. H. B. Sharpe, of Indian Head, Sask., is visiting Mrs. D. N. Campbell.

The Modern Woodmen of America will hold an ice cream social in their hall on Tuesday evening, July 20th. Farmers neighbors are asked to contribute cream. Come in and enjoy yourself.

Any person wishing to get a Shooker will do well to leave your order at once with Brown & Brown.

Mr. and Mrs. C. E. Tryon, of Saskatoon, arrived on Sunday evening to spend a couple of weeks with Rev. and Mrs. Powell. Mr. Tryon is business manager of the Saskatoon Daily Capital.

You can always look for something new and up-to-date at the Lacombe Furniture Store.

Calgary Daily News:—Three proprietors of refreshment booths at the Fair appeared before the police magistrate this morning charged with selling beer containing more than the regulation 3 per cent of brain fog. They paid \$50 and costs each.

FOR SALE—Team of ponies, broken; work horse about 1500 lb. 70 head Steers—A. Gilmour.

M. G. Neff, who for some time has been in the employ of C. R. Denike, Jeweller here, has purchased a jewellery store in Ponoka and will take possession immediately.

The O.K. Shooker will fit on any binder. Sold by Brown & Brown.

According to the Plaindealer's way of reasoning, simply because Strathcona and Edmonton want every institution in sight, it should not be called "hogging."

Try a Massey-Harris binder. They will handle grain that no other binder can touch. Sold by Brown & Brown.

Red Deer News: G. H. Hutton, of the Lacombe experimental farm, was in town yesterday and inspected the school grounds with the Board with a view to making some suggestions with regard to the leveling and beautifying of the same. Mr. Hutton was greatly pleased with the splendid grounds and gave some valuable information with regard to placing them in first class condition.

The provincial department of agriculture is well-advised in arranging cheap excursions to the experimental farms during July. The farms cannot be taken to the farmers; the best thing possible is to take the farmers to the farms. A practical farmer will learn more from a day's visit to a model farm than from columns or volumes of descriptive matter. "Seeing is believing" in a more close and personal way than gathering information from type and picture. It is to be hoped the excursions will be thoroughly advertised and that the trains will be filled with farmers.

The Massey-Harris mower is guaranteed not to play in the finest of grass, no matter how wet it is. Sold by Brown & Brown.

W. Smith, commonly known as "Spokane" Smith, is not the best liked man in the province, but that does not in any way excuse the low and cowardly work of some miscreant who came along on Saturday night and cut half a mile of fencing on Smith's place. There were two wires on part and three wires on the rest of the half mile stretch and each wire was cut at every post. There were 152 places where each of the two or three wires were cut. Not content with this, whoever did this dirty work appears to have driven a bunch of horses and cattle into Smith's wheat. We hope the police will speedily get hold of the low knave who did this dirty action.—Crossfield Chronicle.

Harry Metcalf disposed of his farm near town last week for the handsome sum of \$30,000. This farm is one of the best improved places in Alberta, and the price brought is considered very reasonable.

Olgas, tobacco, pipes, cigarettes, and all smokers' supplies, at The Athletic Olgas Store—F. M. Leas.

Go to the Lacombe Furniture Store for camp supplies.

Calgary Alberta: Word was received by Ald. Reilly this morning of the death of James Reilly, which occurred at Victoria early this morning. Mr. Reilly had been somewhat indisposed for some little time, but recently was thought to be improving, and the news came as a shock to the members of the family in Calgary as well as to the residents generally.

If you are looking for something you can't find, see BAILEY.

The new license law of Nebraska came into force on the 6th inst. Under its provisions all saloons and bar-rooms are allowed to keep open only between the hours of 4 a. m. and 8 p. m. Boone will soon be at a discount in the United States.

See Bailey for 6 inch plank, 16 feet long.

Paul Miller, a resident of Calgary, was killed by lightning on Tuesday last. The normal school and other buildings were also struck but slight damage resulted.

D. Cameron, tailor, has secured the Lacombe agency for the Snowflake Steam Laundry, Edmonton. For terms see Mr. Cameron. Satisfaction guaranteed.

The O.K. Shooker will shock your grain faster and better than human hands can shock it. For sale by Brown & Brown.

During the past week the population of Gull Lake has increased by over two hundred. Tourists from all over the West—as far east as Winnipeg—have taken up residence for the summer, and new cottages are being built every day or two. The popularity of this resort will increase with time.

Why bother with that old rake of yours. Get new one that won't break, from Brown & Brown.

On Sunday last a house on O. Palmer's farm was struck by lightning. The fluid performed a very strange feat by taking a whole pane of glass from a window frame and laying it on the ground unbroken. Beyond shattering a board or two no damage was done.

A split rail drag is being operated on the Gull Lake road, and is doing good work. The chief object of the drag is to keep the ruts filled after heavy rains and perform this function to perfection. There is at present one dangerous hole on the road about three miles west of town. Last year a culvert at this point was taken out, and instead of being replaced the hole was filled with brush and earth. This filling is now disappearing with the result that a hole about four feet deep is left in the roadway. This place should be fixed at once. If a few hundred dollars could be expended on this nine miles of road west of town this year a permanent good road could be obtained. All that is needed now is the opening of ditches. Mr. Wight has done splendid work on this road, and should be given the money to complete the job.

MOORE-LODGE.

A quiet wedding was solemnized in the Methodist Church, Lacombe on Thursday, July 8th, when the Rev. Thos. Powell united in the bonds of hymen, John Potts, 2nd son of James Moore, Esq., Victoria Gardens, Belfast, Ireland, and nephew of the Rev. J. F. Potts, R. P. Church, Glasgow, and Dr. Renwick Potts, Mahone House, Forthill, Dundalk, and Emma, only daughter of John Fletcher Lodge, Port Howe, Cumberland Co., Nova Scotia, and niece of the Rev. W. W. Lodge, Grace Church, Charlottetown, P.E.I., and Matthew Lodge, Esq., Moncton, New Brunswick. Mr. and Mrs. Moore left for Content by the evening train, where they will reside. They have the best wishes of their many friends for their future happiness.

DENTISTRY

Canada's Forest Products.

By instruction from the Forestry Branch of the Department of the Interior, A. H. D. Ross, M.A., of Toronto University, has issued a bulletin dealing with the forest products of Canada. In 1908, the exports of manufactured and semi-manufactured products, his report says, amounted to less than \$10,000,000 and last year they aggregated \$49,000,000. The United States, in 1908, took \$7,823,280 worth, and last year \$17,470,742 worth; in the same year Great Britain took \$9,854,340 and \$11,482,094 respectively. In manufactured wood products, such as pulp wood, the whole practically goes to the United States.

Mr. Ross discusses the need of more thorough gathering of information respecting the forestry resources of the Dominion. It was with this in view that the Forestry Branch was started. The great forest areas are among the greatest resources of the Dominion. In the census of 1891 the forest area of the Dominion was estimated at 799,000,000 acres. More recent estimates, says Mr. Ross, reduce the area to between 600,000,000 and 600,000,000 acres, but this will include areas of timber which is not at present merchantable, and for land covered with merchantable timber presently available estimates have been made as low as 200,000,000 acres, and even 100,000,000 acres. It is to be remembered, however, that these are estimates based on deductions from a general knowledge of conditions or of special areas, and none of them are entitled to great reliability.

The stand of timber is even less known, but between five and six hundred billion feet of timber suitable for sawing would be a conservative estimate. In addition there are large areas suitable for pulpwood. The whole forest area of Canada has suffered so severely from fire that the average stand must be computed at a low figure.

United States Finances.

In December last the Secretary of the Treasury at Washington estimated that on June 30, that is to say, Wednesday last, the close of the fiscal year of the United States, there would be a deficit of \$114,000,000. By the end of February the situation was still worse and the treasury officials talked of a deficit of \$135,000,000, but since then increased importations in apparent anticipation of upward tariff changes and in response to improving business conditions have operated to increase customs revenue beyond earlier expectations, and in consequence an actual deficit slightly under \$90,000,000 is revealed for the fiscal year. All classes of expenditure save the navy show increases over those of the previous fiscal year, so that the smaller-than-expected deficit is less due to economies in administration than to revenue improvement.

It is regarded as likely that the first three or four months of the current fiscal year will yield a heavy revenue deficit as matters stand. The United States Government, therefore, begins the new fiscal year in rather straitened circumstances and with no immediate prospect of relief. It may be able to get along without borrowing any money either under its authority to issue 2 per cent. Panama Canal bonds or 8 per cent. temporary certificates of indebtedness. But unless this session of Congress provides new taxes to take effect before the end of the year, the chances are that the United States Government will have to float a loan.

Mr. Newlywed had taken his wife to the fair grounds, and was, of course, anxious that she should participate in what he considered the "sure thing" of the day. So he joyfully informed her that he had put \$30 in her name on Surefoot. "It's a dark horse," he exclaimed, "and the price is 10 to 3." "But what does 10 to 3 mean?" queried Mrs. Newlywed, whose knowledge of racing matters was slightly limited.

"Why," said her husband, "surely that's simple enough. If you have \$30 on a horse, and it starts at 10 to 3 and wins you get \$300." "Oh! how splendid!" said the wife, clapping her hands at the prospect of such easily gained wealth; "but what shall I get if he doesn't start until 5 o'clock?"

ALIX NEWS.

Alix celebration on Monday 5th inst. was a huge success. The weather was charming, the crowd large, and the entertainment ample. It is estimated that about a thousand persons were present. A large contingent came from the east, and among these the Bass Band from Stettin, which rendered excellent service. The races took place on the Polo Grounds in the morning. There were three in number, viz: First race won by C. Y. Lamson; Pony race won by Lawrence Tomatoes with W. S. Shultz second; cowboy race won by C. E. Amphlett.

After dinner baseball, suggested attention: a game between Great Bend and Alix was first played, Alix being successful. The second game was played between Tees and Enkline, Enkline being the victor.

Some minor sports took place later with the following result:—Hundred yard race, Dan Dielmo. Fat Man's race, Red Hopkins. Shooleas race, Roselle. Sack race, Chas. Carter. 3-legged race, Hopkins & Potter. Tug-of-war, C. Gilmoed, C. B. Ripley, Geo. Wood, E. C. Anderson and Roy Reynolds.

The bowery dance and fireworks engaged attention in the evening. The crowd was sober and orderly, and all seemed to enjoy themselves. The committee in charge are deserving of great praise for their excellent management.

A thunder-storm passed over this district on Sabbath the 4th inst. an also on Saturday.

Percy Yarwood returned from the College in Edmonton on Monday.

Miss Elliott left on Tuesday for a two months trip to Vancouver and Victoria.

W. L. Pettet, our genial postmaster, met with an accident early this week. It might have been serious; as it is it must have caused considerable pain.

Miss Maud Bidleman visited her parents and other friends a few days ago. She took in the celebration and returned to Lacombe on Tuesday.

Mr. and Mrs. Frank Mitchell left on Monday for Seattle and other points. They intend to be away for about six weeks.

The Ladies Aid met at E. L. Trickett's on Wednesday.

Some of the merchants on Main St. have been painting their stores and otherwise improving their appearance.

A number of our citizens left on Tuesday morning to take in the Calgary Fair.

Crops and gardens present an excellent appearance.

BENTLEY NEWS.

D. B. Palmer and W. Weller attended the Calgary fair last week. The ladies' ice cream social at James McPherson's ice cream parlors on Saturday night, netted \$15 to their fund. A large crowd turned out and the rain kept them from leaving until the ice cream was finished.

A social party in honor of Miss Gibson, of Edmonton, is to be held at the McPherson's Hall on Tuesday night.

Major W. B. McPherson returned home last Thursday night from Minneapolis with his bride.

A large crowd from this vicinity expect to attend the celebration at Lacombe on the 15th, if the weather is favorable.

BORN.

SPRATT—At Olds, on July 6, to Mr. and Mrs. R. M. Spratt, a son.

KASHA—At Lacombe, on July 7, 1909, to Mr. and Mrs. J. J. Kasha, a daughter.

For Sale

One registered Shorthorn bull rising three years old. Splendid stock getter. Apply Box 181, Lacombe. G. CURRY.

Eye Defects.

There are three principal forms of eye defect which can be corrected by the use of glasses.

Hypermetropia (commonly known as far sight).

Myopia (near sight).

Astigmatism (uneven curvature of the cornea or front of eyeball). Symptoms of hypermetropia (far sight) pain in the eyeball, temple and brow irritation of the eyeball and eyelids causing the eyes to water, styes, drooping and an inclination to close the lids after reading for any length of time. These symptoms will disappear when properly fitted glasses are worn.

Myopia or near sight, is determined by the inability to see clearly when viewing objects at a distance. The most prominent causes are heredity and the excessive use of the eyes for near work at a very early period in life. In no form of eye defect, which can be corrected by the use of glasses, are the results so far reaching and of such a serious nature as in myopia. Posterior Staphyloma or bursting of the eye tissues at the rear, Detachment, also hemorrhage of the retina, and a predisposition to cataract may be mentioned as among the graver forms of disturbance which are directly traceable to uncorrected myopia. This form of defect gradually becomes worse unless checked by the continued use of properly fitted glasses.

Astigmatism is a condition of the eye in which rays of light do not focus at one point but constitute a series of focal points corresponding to the different curvatures of the various meridians. When astigmatism is present it is necessary to have glasses specially ground.

Lacombe Optical Parlors, NANTON ST.

Paul Hobson, Graduate Optician. If you are having trouble with your eyes, you may consult us without charge.

All cases where pathological conditions exist, are referred to an oculist.

Glasses fitted by the most improved methods. All kinds of spectacle repairing done promptly.

COME TO LACOMBE THURSDAY JULY 15.

The Greatest Sporting Event
Ever Held in the District.

Be sure to come to town on Thursday next, 15th. If you do not come you will miss the greatest day of sports ever pulled off in this part of Alberta. Arrangements are all completed for the accommodation and entertainment of the crowd that will be here on that date.

A long and interesting program of athletic sports, consisting of foot races, wrestling, etc., has been prepared. There are races for girls and boys, novelty races, and sprints for the older ones, and good prizes are hung up for each event.

For the horsemen a good list of races has been made. Trotting or pacing, running, cowboy races and other events, and good purses are offered. Entries are all free and some keen contests will be witnessed.

An interesting and popular feature of the day will be the Indian sports. The committee in charge has arranged for the appearance of Chief Samson's band here, and the members will put on the old original sports of the tribe which were indulged in hundreds of years before the advent of the whiteman. This one feature is well worth coming miles to witness.

Then the automobile races will be something new around here. The several machine owners of this district are training for the event, and the chances are that they will be able to get around the track without doing any serious damage.

A large number of entries have been received for the Marathon race, which will take place on the race track, the runners being in full view all the time. Long distance runners from all parts of the province will compete.

Professor Khol, a world-famed balloonist, who has given exhibitions during the Calgary and Edmonton fairs, and who has been secured by the Winnipeg Industrial Management as a special attraction, will make an ascension and parachute drop in the afternoon. The Professor, with his mammoth gas bag, ascends to a height of nearly a mile, and then jumps from the balloon, risking his life on a parachute. This is a most thrilling feat, and never fails to be appreciated.

In the baseball and lacrosse tournaments teams have entered from all over the province, and lovers of these sports will witness swift matches during the afternoon.

In the evening the Black Patti Opera Co., world-famed colored artists, will give an entertainment in the opera house. This is one of the best companies of entertainers on the road and should draw a large crowd.

Excursion rates have been secured on all lines, running into Lacombe.

Now, don't fail to put in an appearance here on Thursday next. You will live to regret it if you do. Thursday, July 15, is the date.

A. W. Kent, the Lacombe Paper-hanger, Decorator, Painter, Grainer, etc., has just received his new stock of wall paper for 1909. Those who are going to have papering done, would do well to come and select their papers while they have the full stock to select from, and name their dates when they want it put on, as I am expecting a busy season. I sell white lead, linseed oil, putty, varnish, paints etc. 40 years experience.

Mr. Craig Was Officious.

The Calgary Daily Herald says: Superintendent of fairs, Mr. Craig, of Edmonton, appears to have gotten himself in hot water with the fair board and to have let out by it. From reports that have come to the administration department of the fair he has been very busy although in no case has he complied or consulted the fair board or officials. Reports from gatekeepers have been received of Mr. Craig being busy telling them how to take tickets and how to tell rigs to back up and turn around. But the most important trouble has arisen from his taking upon himself the power to go around and close any of the side-shows he sees fit without consulting either Mr.

Richardson or Mr. Van Wart. He ordered closed three shows, one of a human freak, one of a mummified or petrified Indian and child, and one of wax works. These shows had shown in Edmonton without any objection being raised against any but the wax works which were closed up there.

This morning the minister of agriculture, Hon. W. T. Finlay, License Inspector Deyland and President Van Wart went around to see and judge on the shows that had been so summarily condemned by Mr. Craig. The human freak show was instantly approved by all of the party. The mummified Indian was said to be both interesting and instructive. In fact Mr. Finlay said he and the premier had visited and been deeply interested in the exhibit at Edmonton.

Pipe repairs of all kinds at the Athletic Ogar Store & Billiard Hall. F. McLean, the Pipe Man.

The Local Weekly.

Bryan's Commoner: At this time when the great dailies are becoming more and more business enterprises rather than exponents of opinion, and especially when a number of them have become the property of predatory interests in importance. It can be owned by the man who edits it, and therefore, has behind it a conscience and a character that can be identified. It is close to the people and can give voice to the sentiments of its readers. We have to rely more and more upon the country papers for the educational work that is necessary to a correct understanding of public questions. The country newspaper can obtain its news from the metropolitan daily, but it must do its own digesting and interpreting. There is a lot of difference between the man who writes what he is told to write and the man who writes what he believes, and writes because he believes he has a message to deliver to his readers.

The Baths—Hot or Cold—at the skating rink, are now open to the public every Saturday afternoon from 1:30 to 11 o'clock. T. Cummings.

Notice to Creditors.

In the matter of the estate of William G. Barclay, Insolvent. Notice is hereby given that the above named insolvent William G. Barclay, formerly near Iowalla in the Province of Alberta, but now of Nelson in the Province of British Columbia, Farmer, has made an assignment of his estate and effects to The Trusts and Guarantee Company, Limited, Official Assignee for the general benefit of his creditors, under the provisions of "The Assignment Act," being Chapter 6 of the Statutes of Alberta 1907.

The creditors are notified to meet at the Office of The Trusts and Guarantee Company, Limited, in the City of Calgary, at the hour of 3 o'clock in the afternoon, on Thursday, the 15th day of July, 1909, for the purpose of receiving a statement of the affairs of the said insolvent, for the appointment of inspectors, and the giving of directions with reference to the disposal of the estate.

Every creditor or person claiming to be entitled to rank on the estate assigned is required to deliver or send postpaid to the said Company on or before the 30th day of July, 1909, particulars of his claim verified by affidavit, and such vouchers as the case admits of, and stating whether he holds any security for his claim or any part thereof and putting a specified value on such security (if any), in accordance with the said Act.

And notice is further given that after the said 30th day of July, 1909, the said Company will proceed to distribute the estate of the said insolvent under the said Act, having regard only to the claims of which it shall have notice at such time of distribution.

Dated at Calgary this Fifth day of July, 1909.

The Trusts and Guarantee Company, Limited, (Official Assignee)
A. G. ROSS, Manager
J. I. POOLE, Solicitor for the said Company

Souvenirs AND Novelties

We have just received a shipment of nice Lacombe Novelties, consisting of Photographs of the town in pretty little glass frames of various sizes, also an assortment of leather albums with different views of the go-ahead town of LACOMBE. How nice it would be to send to your friends down East or across the water. Call in and see them and at the same time view our general stock. We will give you a small fan to keep yourself cool during the warm weather.

BILLE'S GOPHER POISON.

The Greatest Gopher Killer ever put on the Market

UNPRECEDENTED SUCCESS IN THE DISTRICT.

READ THE FOLLOWING TESTIMONIALS FROM FARMERS WHO HAVE GIVEN IT A TRIAL

It will kill all the gophers that eat it and it attracts them as well. We were troubled very much with them in our garden and I put some out and while doing so, saw one, and I thought I would see what effect it would have and he ate two grains and began to wink very fast then he hit his tail, and started for the hole and died before he got in, just about two minutes. We think it a sure remedy to get rid of gophers.

M. L. CONNELL, Lacombe

Mr. Hastings mixed some of Bille's Gopher Poison for me last August and I distributed it where I could count twenty or thirty gophers at any time, but so far, this year I have not been able to see one. I can highly recommend Bille's Gopher Poison to any farmer bothered with those pests.

W. H. HILL, Pleasant Valley

I have used BILLE'S Gopher Poison and found it to be very successful. I would highly recommend it to anyone troubled with gophers.

A. P. RAINFORTH, Rainton Bank Farm

I find that Bille's Gopher Poison is all you claim for it. I don't believe any gophers live after eating it.

E. J. CONNELL, Pleasant Valley

It is the best poison I ever used. I distributed it around and in 12 minutes went back and picked up 12 gophers.

Synopsis of Canadian North-West.

HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Land Agency or Sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence open and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead. Joint ownership in land will not meet the requirement.

(3) If the father or mother, if the father is deceased of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for to him in the vicinity, such homesteader may perform his own residence duties by living with the father or mother.

(4) The term "residence" in the two preceding paragraphs is defined as meaning not more than nine months in a fixed time, exclusive of the winter of each residence.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Six months notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CROFT, Deputy of the Minister of the Interior. S.B. Canada, publication of this advertisement will not be paid.

Favors Separate Institution.

Since the long editorial in its issue of a week ago, the Edmonton Bulletin has experienced a change of heart. On July 3rd that paper came out strongly in favor of having the University and Agricultural College located in close proximity to each other on the grounds of economy. On Wednesday last the same paper says:

"Meantime in this agricultural country it would surely be folly to neglect the opportunity for using the university as a means for expanding the field of agricultural knowledge. Research work could of course, be carried on at the college, perhaps as well as at the university. But college professors cannot serve two masters, and if there were imposed upon them the double duty of research work and of teaching, it would be found that one or the other would predominate to the disadvantage of the other. Theory, too, has a way of supplanting practice where an effort is made to carry on the two in conjunction and the college would most likely descend into a repository and dispenser of 'book knowledge'—in which case it might as well be closed so far as the farmers or the farming business of the country were concerned. If the two fields could be separated, the university left to carry on the work of investigation and research, while the college devoted itself to putting that knowledge into the heads and hands of the young farmers in attendance the best results would surely be secured."

DON'T FORGET THE NO.
The Lacombe Furniture Store is Headquarters for SNAPS. Bailey the man who never sleeps.

Major McPherson Married.

Minneapolis Journal. At the home of Mr. and Mrs. R. C. Manly, 3648 Girard avenue north, on Sunday afternoon at 5 o'clock, Maj. W. B. McPherson, formerly of Madison, Wis., but now of Bentley, Alberta, was united in marriage to Mrs. Elvira Greeley McWilliams of Chicago.

Maj. McPherson is a veteran of the civil war, having served in the Eighth regiment of Wisconsin

volunteer infantry—the famous "Eagle regiment." Later he was associated with the work of the state militia, and served on Gov. Peck's staff as assistant adjutant general. He was also connected with the quarter-master's department during our war with Spain. Maj. McPherson attended the recent state encampment of the Grand Army of the Republic at Eau Claire as aide-de-camp to Commander in Chief Nevins of New Jersey, receiving his appointment and colonel's rank in appreciation of his services in the organization.

The bride, Elvira Greeley McWilliams, is a descendant of the Horace Greeley family, and was the widow of a veteran who served in the same company as Mr. McPherson during the civil war. She was attired in an empire gown of gray, satin and was attended by Mrs. W. E. Hartum of Chicago. The rooms were brightened with ferns, peonies and red and pink carnations and the service was read by Rev. R. C. Manly. After the ceremony a wedding supper was served the 24 guests.

Among those present were Mr. and Mrs. W. E. Hartum of Chicago, Mr. and Mrs. A. A. Foye of Line Springs, Ia.; Mrs. H. Watts and Mrs. Mary McPherson of Lisbon, N. D.; Mrs. Mary Blair of Ames, Ia.; Mrs. L. Woolverton of Chicago and Mrs. M. Shaffer of Minneapolis.

HOUSES FOR SALE or RENT
One 9 room rents at \$16.00
One 3 room rents at \$6.00
Both of these houses have good barns and wells in connection.

Visit the Experimental Farm.

The following invitation to readers of The Western Globe has been sent out by Supt. Hutton. All who can spare the time should be at the Farm on July 20th. Editor The Western Globe:

Dear Sir: We extend to you and to your readers who are interested in Agriculture an invitation to spend the 20th of this month with us at this station. While much remains to be done to lead to the attractiveness of this new Farm, yet we hope to be

in a position to place before you something of interest and practical value.

Caterers will supply lunch to those who do not wish to bring baskets, and every effort will be made to make the day pass pleasantly and profitably.

Sincerely yours,
G. H. HUTTON, Supt.

A six room house for sale on easy terms. Will be ready for occupancy Sept. 1—see BAILEY.

Why Boys Drop Out.

Boys, an investigation by the Sage Fund in 753 cities and towns shows, drop out of school more than girls. The first grade begins in three places with 100 boys to 93 girls. By the eighth grade there are 24 boys to 28 girls.

Two things have come. Three-quarters in both sexes have dropped out for one thing; but, second, the girls who began in a minority end in a majority. Nearly half are gone by the fifth grade, when only 53 boys and 53 girls are left of the 100 boys and 93 girls who started.

The large number of women teachers who have less "sympathy" with boys is suggested as a reason. This has little to do with it. Boys dropped out when there were more men teachers. Women keep boys up to their work in early years better than men. They understand mothering better.

Boys drop out because they less easily yield to discipline. They get into more scrapes. They are physically more active. They yearn for exercise. Intellectually they develop more slowly. Later, when original work is wanted, the boy pulls ahead. In any 100 boys there are also more odd sticks who do not pick easily in the corded wood of a school course.

Give the boys more playgrounds; change the last four grades so that manual training and physical action are called for, studies that count in wage-earning and life, and increase the teachers so that special aid and help can be given to the boy who is dull, different or erratic and the boys will stay as long as the girls.—Philadelphia Press.

NEW SCHEME TO ATTRACT SETTLERS.

Hollanders Will Be Brought Out and Paid to Operate Alberta Farms.

A new colonization effort is promised by the Holland Alberta Development company. From the prospectus just issued it would appear that they will have no difficulty in interesting the most desirable class of Holland immigrants among whom they will work exclusively.

The company proposes to pay their clients' travelling expenses to Alberta, furnish them with a free horse, provide each with a quarter section upon which will be provided the necessary stables and out houses, wells, so necessary for an ideal western farm. Besides giving the settler a house to live in, they intend to give him the free use of a five-acre plot, which will enable him to pay for his household necessities, out of the products of his garden, thus making it possible for him to lay aside his monthly wage from the start, and form the nucleus of a substantial sum for the gradual purchase of the farm in the course of time.

After the settler has farmed for this company for ten years, under the supervision of a foreman, he will have the option of buying on easy payments the whole farm or part of it, with all its original improvements, houses, implements, etc., at the then appraised value of land and inventory. After this, unless the shareholders choose to do otherwise, the company's aim and object shall have been fulfilled, its invested capital shall have been returned with interest, and hundreds of good industries shall have been added to the fertile plains.

This company will on each quarter section, cultivate 140 acres, allowing the other 30 acres for the settler for the purpose of gardens, pasture, etc. Each settler will be allowed a yearly wage of \$400 for himself and \$100 for help on the farm.

The Hollanders will be brought out next April, and each of these settlers is supposed to break 60

acres in the spring and put it into crop.

But farming is not the only object of this company. Connected with farming and admirably adapted to local conditions, markets, etc., are certain industries that are bound to prove a source of great revenue to the investors. Edam and Gouda cheese can as easily be made in Alberta by the Dutch farmer as in Holland. Holland and Belgian linen more profitably than in Europe. Flax raising is one of Holland's main industries. Then there are canning and pickling factories, linseed oil and coke mills. These industries will have the attention of the new settlers.

It would seem that both Hollanders and investors alike will benefit to the fullest extent. The former in the fact that it is not necessary for them to have capital in order to acquire a farm and the latter in the fact that they will have invested their money in land the most conservative investment on the continent. This money will not be idle, as the crops will pay returns upon the entire investment, and at a rate much in excess of that usually secured from commercial ventures.

B. F. Bailey just received a large shipment of Harness and Saddles which will be sold at old prices.

Alberta Undertakers Meet.
B. F. BAILEY, UNDERTAKER AT LACOMBE RECEIVES HIS DIPLOMA.

A very successful meeting of the Alberta Funeral Directors' and Embalmers' Association, consisting of over 70 members, was held at Calgary, July 6, 7, 8 and 9. This was the occasion of their 3rd Annual Convention and was a grand success in every way. Three sessions were held each day. Several instructive, practical addresses were given. Dr. Myers, of the Myers' College of Embalming, Springfield, Ohio, the well known expert on the treatment of corpses, gave several technical demonstrations. Mr. A. M. Shaver of Calgary, was again unanimously elected president for another year. B. F. Bailey was one of the members who successfully passed the rigid examination, and now holds his diploma for practicing embalming in Alberta.
